

Levitation Portrait

AUBRIE PITTS

Base Photos

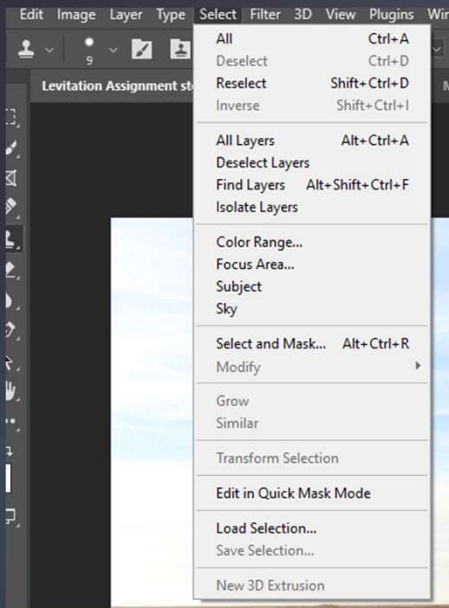

BACKGROUND

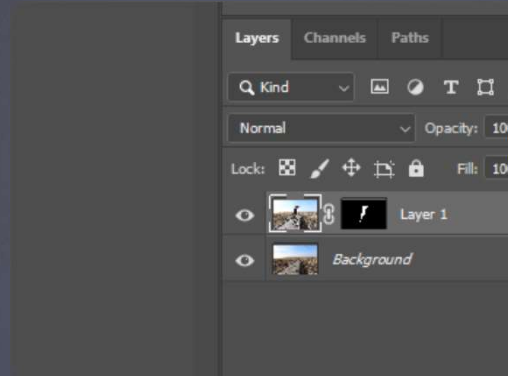

OBJECT

Merge Photos

- Select object layer
- Choose Select → Subject

- Keep object layer selected
- Apply Layer Mask
- Use brush tool to fine tune

- Repeat process to add more objects
- Adjust object/background exposure if needed

Additional Effects

- Add shadows to objects if needed
 - Portraits best done on cloudy days
 - Sunny photos typically have shadows
- Avoid unusual shadows in background photo
- Shadows can be replicated in Photoshop
 - Follow rules of lighting

Additional Edits (All Optional)

- Camera Raw Filter
- Add Vignette (recommended)
- Dramatic lighting/contrast (common for artistic concepts)
- Dramatic color composition (fun to experiment)
