fear to say."
-William Henry

and too honest
in aught to disguise the soul
shining through them.”

AUBRIE PITTS

My name is Aubrie Pitts. Currently, I am a graduate of Davis High School continuing the process of becoming an EMT Firefighter, with the intent to eventually become an Arson Investigator.

I have four siblings, two biological and two from one of my step-parents. We have four cats and a dog divided between my parent's houses.

Outside of photography, I enjoy volleyball, music, the outdoors, realistic conceptual makeup, and collecting sweaters, Tshirts, and souvenir pins. I am a major thrill-seeker who watches horror movies religiously and loves going to haunted houses and thriller rides that most others would not enjoy. My favorite holiday is Halloween, because it means I get to put on some crazy horror movie makeup and scare people on the street.

I have been described as extremely adventurous, as I am willing to try anything once. I believe that bad experiences are just a part of experiences, and that it shouldn't deter you from trying new things.

“What I like best about photographs is that they capture a moment that's gone forever. Impossible to reproduce.”

-Karl Lagerfeld

Growing up in a rural area in Northwest Montana, I've always had an eye for beauty and detail, and I was always looking for those picture-perfect moments that are typically overlooked by those who simply wished to enjoy the view. Once I had more opportunities to improve and learn more about the craft, my love for capturing the beauty life had to offer continued to grow along with it. I've gained a love for vibrant, conceptual, and expressive photography.

I live my life with the intent to savor and preserve as many memorable moments as I can. I have experienced so much in my life, and the memories and emotions I have gained as a result have shaped me in an indescribable way. I have always felt a need to express those emotions and memories in their truest depth, and I have found that this is the greatest way for me to do so. Photography is a form of expression that can't quite be replicated in any other way. Photography will always be a part of my life, and I am excited to see what moments I can preserve in the future.

The design of this photo book and all photos in this book are taken and edited by Aubrie Pitts.

“Photography is an art of observation. It has little to do with the things you see and everything to do with the way you see them.”

-Elliott Erwitt
